THE Detroit Free Press says if a white man and a negro should come to blows in any city in the North, and each had friends at hand there would be a Danville riot and no politics about it.

THE New York Legislature is about to confer upon the mayor of that city the power of filling all the offices and thus making him responsible, as he should be, for the management of all the departments. Hence John Kelly is anxious to

be the next Democratic candidate for that important office. THE New York Sun, which has dropped Great Objector Holman from Indiana, and is again beeming the poor old paralytic of ramerey Park, gives as a fresh reason for the latter's nomination for President that he contributed \$51,500 to help elect Hancock. Mr. Dana must excuse us if we ask for the vouchers.

THE revised version of the Old Testament is likely to be out in less than six months. The St. James's Guzette hopes that it may be minus the marginal notes. THE New York San, in a double-leaded editorial, the other day, headed "Why the People Want Tilden," among other things says: "Mr. Tilden is the living incarnation of the reform of the governent." This is mere rot, Mr. Dana. The Democratic party and not Tilden, nor any other one man, is the "living incarnation
